Rules concerning Husbandry.

WHen you would Plant or Graft, consider where the wind bloweth, if it be in the South it is very good for that purpose, but if it be North or East it is not good.

It is good to plant or graft generally the Moon encreasing in these signs, Taurus or Aquarius, in the beginning of the Spring, or latter end of Harvest.

Plant trees for continuance, when the Moon is in Taurus Leo, or Aquarius.

Cut timber to have it sound in December or January, in the

the wane of the Moon in Aquarius or Piſces.

Prune trees and pull off the moſs in the moneth of Febr.

Plaſh hedges, and Lop trees for Fewel, that the heads may the ſooner grow again, when the Moon is in Aries or Libra, and in her increaſe.

Set young Quickſets from September to March.

Remove young Trees in the laſt quarter of the Moon, when ſhe is in Aries, Libra, Scorpio; and in theſe Moneths, September, November, February.

Set Vines in February, March or September, eſpecially the Moon in Aries, Libra, Scorpio, in her increaſe.

Set Roſe trees in the midſt of February, the Moon increaſing.

Cut or prune trees in March or April, the Moon in Taurus, Virgo or Capricorn.

Gather fruit, as Apples, Pears, and the like, at the full Moon the afternoon, the weather being fair and dry.

Cut down Hay preſently after the full of the Moon.

Dung ground to prevent growing of weeds, the Moon decreaſing.

Sow Carret-ſeeds about the end of February, or the beginning of March, the Moon increaſing. Alſo ſow Onions, and Leeks in February or March, at the wane of the Moon.

Sow Cucumbers and Millions in February or March, or June, in a hot and fair day.

Sow Parſley, Fennel, and Annifeed, in February or March, at the full of the Moon.

Sow Margerum, Violets, Time, Roſemary, and Lavender, in February, March, or April, in the increaſe of the Moon.

Sow Gilliflowers and Wall-flowers in March or April, in the old of the Moon.

Sow Hyſop and Savory in March, when the Moon is old.

Sow double Marigolds in February or March, in the increaſe of the Moon.

Shear Sheep at the increaſe of the Moon.

The beſt time to Geld cattel the Moon being in Aries, Sagitarius or Capricorn.

Of Blood-letting, and some other Physical Observations.

IN Youth let blood from the change to the first quarter, in middle-age, from the first quarter to the full. In elder years, from the full to the last quarter. In old age, from the last quarter to the change. But know, that under the age of 14. and above the age of 56. it is not good to bleed at all.

Again, in the Canicular or Dog-daies, it is very hurtful to take any Physick at all, unless there be great need; and indeed necessity hath no law: Wherefore in such a case, the disease being desperate, the cure must be adventured.

Take a purgation when the Moon is in Trine, or Sertile aspect with Venus, decreasing in any of these three Signs, Cancer, Scorpio or Pisces, and it will be sure to work the better, because when a moyst Planet, in a moyst Sign hath such an aspect, the humours in the body are then stirred up and down, and so the better purged out; wherefore in this case, it cannot be amiss to prepare humours by something that is laxative: and let this be done whilst the Moon is either in Gemini, Libra, or Aquarius.

Take a vomit that it may work throughly, when the Moon is in Aries, Taurus, or Capricorn: and know that the aspects of the Moon with Saturn, or Mars, or the Moon in Leo, ought to be eschewed in the taking of Medicines.

Finally, if necessity urge no haste, these observations are expedient: for it is a plain truth, that the change of weather upon differing aspects, doth greatly change and alter mens bodies.
